## 5-PIN BOWLING: HELPFUL TIPS FOR FIRST TIME BOWLERS

A great instruction manual for new coaches in your YBC program. Instruction for your volunteers on how they can best help your young bowlers to learn the best practices on how to pick up a ball, throw two handed, convert to one-handed delivery and learn the 3 step approach.

### POSITION OF THE FEET

Have the bowler walk up to the foul line and stop 3-4" from the line, place their feet about 20" apart. Make sure the feet are far enough apart that the bowler's arm can swing freely between the legs.

### HOLDING THE BALL

Once the bowler has assumed the correct stance at the line make sure they have the ball held firmly in their finger tips with the 3rd and 4th fingers on each hand touching each other and the thumbs as high on the ball as possible.
